NITK-RDL MAKEATHON

As part of the joint collaboration initiative between Research Design Labs, Mangalore, and NITK, Department of IT is organizing a MAKEATHON on 16th & 17th March 2019 for exposing our students to Industry related problems and addressing associated challenges.

The identified problem statement is on improving the guidance system of Automatic Guided Vehicles (AGV) to reach the defined destination with highest possible accuracy. The students will get hands-on experience in LIDAR based Automatic Guided Vehicle fundamentals and necessary guidance will be provided by Industry experts from RDL.

The Makeathon is open to 1st, 2nd, 3rd and 4th year IT students (3 members in each group). Only 6-10 groups will be selected on a first come first serve basis.

Venue: Project Lab, 5th Floor, IT building.

Date: 16th -17th March 2019
